

Dear Sirs,

Raketa Industrial and Commercial Company Ltd is one of the leading Ukrainian companies engaged in manufacturing polymer goods as well as designing, fabrication and repair of production tooling.

During 20 years, we cooperate with many industrial companies at the polymer-processing market, in particular, with CJSC "Zaporizhia Automobile Building Plant" in car industry. Raketa Company has the large stock of high-yielding equipment fabricated by world leading manufacturers of injection moulding machines, namely:

- Grantway Machinery Co., Ltd;
- Borche Machinery Co., Ltd.

Such leaders of the polymer production market as BASF, Bayer, LG, Samsung, deliver raw materials for our products.

Up to date, Raketa Industrial and Commercial Company Ltd features by the following data:

- Staff — 70 persons;
- Working area — 1,200 m²
- Storage area — 660 m²
- Injection moulding machines — 23 pcs;
- Blowing machines — 3 pcs;
- CNC machines for manufacturing moulds and tooling — 10 pcs;
- Cargo transport fleet — 3 pcs.

For car manufacturers, we fabricate the following components during long time:

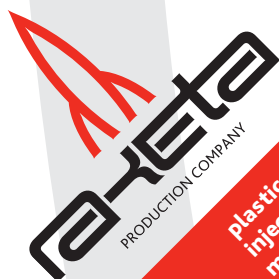

- Windshield wiper reservoirs assembly;
- Expansion reservoirs;
- Petrol caps;
- Window rollers;
- Boards, handles, clamps, bushing, etc.

The above list will be promptly reviewed and kept up to date according to your wished and modern requirements concerning localization of car component manufacturing in Ukraine.

According to the Law of Ukraine as of July 4, 2013 Ref. No "Concerning Vehicle Disposal", our company offers cooperation on a contract basis to act as a site for vehicle taking and dismantling in the city of Dnepropetrovsk on behalf of your company. We are able to fulfil completely all requirement made to such sites according to valid law.

With my best regards,

Alexey Bushuev
